

- 1** Need to put more text on your notes? V7 now supports up to 60KB of text and an unlimited amount of images
- 2** Instantly link to other notes via their titles with the new “Insert link to note” feature
- 3** One click gives you a **Daily Schedule** note showing all the alarmed notes you have set for that day (shift+click any day in the Calendar)
- 4** Want to **suspend any alarmed notes** for a bell-free period? Use the “Pause all alarms” option on the main menu
- 5** Need to do a **quick currency conversion**? Do it like this: 14 USD-GBP then press F4
- 6** Now you can **paste tables and other complex rich text** directly into TurboNote+ from Word or other applications
- 7** **Save screenshots and other note images** as PNG graphics for easy email or uploading — just click on any image and then right click
- 8** **Need to check your word count**? Just select the text and press F5.
- 9** Create a **Group Summary note** from the note menu for a clickable shortlist of all notes you’ve put in any group
- 10** Want to find out **which of your notes is taking the most memory**? Click on the Size column in the Note Manager to sort by size.
